

GALLON PISTON FILLERS

Designed for the institutional packer.

Rugged, high quality stainless steel design

Hinds-Bock's SP-160 Single & 2P-160 Dual Piston Filler/Depositors are classic workhorses for the food processing industry.

They are easy to clean and operate, versatile, and gentle on all products thanks to the large port openings which permit filling of chunky ingredients without crushing or damaging your product.

Features:

- USDA and AG Canada/CFIA approved.
- SP 160 is equipped with a 20-gallon hopper.
- 2P-160 is equipped with a 40-gallon hopper.
- Heavy duty locking swivel casters.
- Height adjustable from 8 - 14 inches.
- Fill from fractions of an ounce to 160 ounces per piston.
- Pneumatic dump system with interlocked safety cover.
- No-tool assembly and disassembly.

Operating Requirements:

- Air: 80 PSI
- Electrical: 120 V
