

# AUTOMATIC MULTI-PISTON SYSTEM

6 piston batter depositor with conveyor and paper cup dispenser.

## Turn-Key Muffin Production System

Knowing the importance of valuable facility floor space and tight budgets, Hinds-Bock has engineered the perfect batter production system for mid-size bakery production facilities. This system comes complete with a built-in conveyor and a Veropak paper cup dispenser.

This system matches well with mid-size wholesale bakery facilities and central commissaries looking to easily and quickly increase production, control ingredient waste and improve consistency and accuracy in 1 efficient package.

### Features & Benefits:

- Available in 6 and 8 piston versions for maximum throughput of your widest pans.
- PLC with recipe memory for various pans.
- Stand-alone system or installed over your conveyor.
- Full washdown, rugged stainless steel design.
- Integrated Veropak paper cup dispenser.
- Flexible, compact footprint for mid-size wholesale production facilities.
- Competitively priced with quick ROI.

### Typical Products:

- Muffins, cupcakes, snack cakes, round cakes.

### Operational Requirements:

- Air: 20 SCFM @ 40cpm
- Electrical: 110V 15A
